

Daniel Armel

Associate

armel.daniel@dorsey.com

Denver – 303.352.1169

Daniel partners with clients to develop practical, risk-based privacy programs covering the entire personal data life cycle in an evolving global landscape.

Daniel focuses on providing clients with practical guidance and support on data privacy and cybersecurity concerns. He advises emerging companies and established enterprises on designing privacy programs, negotiating complex technology transactions, and managing regulatory risk across state, federal, and international jurisdictions. As a Certified Information Privacy Professional (CIPP/US), Daniel translates evolving laws into sensible business guidance.

Clients rely on Daniel to draft and negotiate master services agreements, software licenses, data processing addenda, and strategic development agreements that enable growth while protecting intellectual property. Daniel partners closely with executive, IT, marketing, and compliance teams to align legal strategy with innovation and commercial objectives.

Select Experience

- Counsel clients on state, federal, and international privacy laws and other consumer protection laws, including the FTC Act, CCPA, GLBA, TCPA, HIPAA, GDPR, PIPEDA, and Quebec Law 25.
- Prepare privacy policies, terms of use, DPAs, and other privacy documents for clients.
- Advise on advertising technology configuration and deployment strategy.
- Counsel on artificial intelligence governance.
