

Diane McDermaid

Senior Paralegal

mcdermid.diane@dorsey.com

Salt Lake City – 801.933.4047

Diane provides excellent experience and value to clients as they navigate commercial real estate transactions, and is committed to excellence in client service through attention to detail, teamwork, and efficient use of available resources.

As a senior paralegal with a lengthy legal career, Diane supports all aspects of commercial real estate transactions including preparation of transaction documents, review of title and survey, coordination of closing and post-closing activities for real estate acquisitions, dispositions, finance, leasing, development, and construction projects. Diane has extensive experience coordinating with title companies on title review and transaction closing matters.

Diane's experience also includes surface and mineral title review on private, state, and federal lands. Her practice includes the research and determination of surface and mineral ownership in connection with mining and other natural resource development projects. Her experience includes title review and curative research relating to state and private lands, along with federal surface and mineral research in connection with patented and unpatented mining claim properties and other federal grant lands.

Her past experience has given her a unique perspective as she worked in-house supporting the general counsel in a large medical system, and has worked in smaller regional law firms. She is a responsive resource for her attorneys and their clients, and very much enjoys being a valuable part of a top-tier legal team.
