

Hui Shen, PhD

Partner

shen.hui@dorsey.com

Washington, DC – 202.442.3183

Dr. Hui Shen represents technology companies in complex intellectual property disputes involving trade secret misappropriation, patent, and copyright infringement. Hui focuses his work on patent litigation in federal district courts and the U.S. International Trade Commission (ITC). He is experienced in different stages of litigation.

Hui is a frequent speaker at industry events and lectures extensively in China on topics related to IP matters facing Chinese companies doing business overseas.

Hui has a strong technical background in electrical systems, computer software, semiconductor device and clean energy technology. He has previously conducted cutting-edge research work at the University of Virginia, where he gained extensive research experience in microwave circuit design and microelectromechanical system (MEMS) device modeling, as well as semiconductor microfabrication process. His Ph.D. work involved the novel applications of radio frequency microelectromechanical system (RF MEMS) phase shifters, and innovative microfabrication techniques.

Select Experience

- Defended a leading Chinese heavy industry company in an ITC case filed by its main US competitor and won the case
- Helped a leading Chinese telecommunications company in a month long trade secret misappropriation trial that resulted in a jury verdict 1/100th what plaintiff was seeking
- Helped a leading Chinese drone company to file the first ITC case with a Chinese complainant and successfully secured a favorable settlement
- Helped one of the world's leading telecommunications companies in a trade secret misappropriation trial that was originally planned for three weeks, but settled on terms favorable to the defendant before the close of the plaintiff's case-in-chief
