

Jack Chmura

Patent Agent

Jack has extensive patent preparation and prosecution experience in a broad range of technologies in both the U.S. and abroad in foreign jurisdictions.

Jack has extensive preparation and prosecution experience in a broad range of technologies including cellular wireless communications technologies (5G, LTE, etc.), artificial intelligence technologies, medical imaging technologies, electrical devices, memory devices, electrical circuits, and control systems. In addition to Jack's technological flexibility, Jack is detail-oriented and always looking for ways to broaden clients' patent portfolios.

Further, Jack works with various professionals located outside the United States to manage foreign preparation and prosecution matters.

Select Experience

Patent preparation and prosecution in:

- Wireless Communication (LTE, 4G, 5G)
- Artificial Intelligence
- Circuitry
- Control Systems

Languages

- Polish

Education

- Colorado School of Mines (B.S., Electrical Engineering, 2022)
