

James Ng

Associate

ng.james@dorsey.com

Denver – 303.352.1134

James supports clients through all stages of patent prosecution with a strategic approach, dedicated to securing and safeguarding their intellectual property.

James is an associate who focuses on helping clients protect their innovations by developing strategic and creative patent solutions tailored to their unique goals. With a passion for problem-solving and clear communication, he works closely with clients to navigate the patent process efficiently and effectively.

Drawing on nearly a decade of experience as a safety engineer in the construction industry and a Bachelor of Science in Mechanical Engineering with a minor in Aerospace Engineering, he applies practical technical knowledge to support clients throughout the patent prosecution process. Committed to delivering thoughtful and practical intellectual property counsel, he enjoys collaborating with inventors and businesses to safeguard their inventions and drive innovation forward.
