Salt Lake City – 801.933.8933

JASON WORKS CLOSELY WITH HIS CLIENTS TO DEVELOP STRATEGIES FOR ROBUST PROTECTION OF THEIR INVENTIONS, FROM THE INITIAL INVENTION DISCLOSURE THROUGHOUT PROSECUTION TO ISSUANCE OF THE PATENT.

Jason's practice focuses on all aspects of patent strategy and client counseling in a wide variety of technological areas, including medical devices, solar and green power technologies, and mechanical devices.

Jason has extensive experience in both U.S. and foreign patent preparation and prosecution. He focuses on compact prosecution, using in-person and telephonic interviews with examiners at the U.S. Patent and Trademark Office, pre-appeal conferences, and full appeals before the Patent Trial and Appeal Board to efficiently advance prosecution. His experience before the Patent Trial and Appeal Board includes drafting complex briefs as well as representing his clients during oral hearings. In addition to utility patents, Jason has filed and prosecuted a large number of design patents in the U.S. and coordinated design protection strategies overseas.

Jason also has substantial experience analyzing and drafting written opinions regarding freedom to operate, patentability, validity and infringement. He has conducted detailed due diligence analyses of patent portfolios covering a wide range of technologies in connection with acquisitions and other transactions, stock offerings, and client counseling regarding strategic business decisions.

Select Experience

- Jason directly manages and oversees all aspects of patent prosecution for a global patent portfolio covering products representing over \$500 million per year in revenue.
- He develops protection strategies, including claim strategies, for highly complex medical devices based on innovations in materials, device structures, methods of use, and the integration of multiple components in innovative systems.

Education

- Harvard Law School (J.D., 2009)
- Brigham Young University (B.S., Mechanical Engineering, 2006)
 - *magna cum laude*

Bar Admissions

- Utah
- United States Patent and Trademark Office

- Jason played a lead role in formulating a strategy for, and conducting, IP due diligence for an acquisition valued at ~\$100 million.
- He analyzed all IP aspects of multiple competing products to guide a solar power client in identifying companies with which to form strategic partnerships.
