

Jordan B. Olsen

Partner

olsen.jordan@dorsey.com

Salt Lake City – 801.933.4055

Jordan works with clients in developing, acquiring, and enforcing their intellectual property assets.

Jordan represents a wide variety of companies in the life science, medical, chemical, and manufacturing industries. His experience includes preparation and prosecution of U.S. and foreign patents, patent portfolio management, and counseling for both large and small companies.

He has experience providing non-infringement, invalidity, and freedom-to-operate opinions. He also has experience providing patentability assessments and conducting due diligence investigations.

Jordan's experience includes litigating patent matters in U.S. District Courts and before the International Trade Commission. Jordan represents clients in inter partes review (IPR) proceedings before the United States Patent and Trademark Office, and in opposition proceedings at the European Patent Office and in other foreign jurisdictions.

Select Experience

Jordan's practice focuses on U.S. and foreign patent prosecution and counseling. His practice also encompasses freedom-to-operate assessments, due diligence investigations, and patentability analyses. Jordan also has experience litigating patent matters and resolving patent disputes.
