

Takahiro Koshibu

Patent Agent, Japanese Patent Attorney

koshibu.takahiro@dorsey.com

Seattle – 206.903.2438

Taka helps companies in the technology industry protect and leverage their intellectual property rights on a global scale.

With extensive international experience gained while living in Japan, the Netherlands, the U.K., and the U.S., Taka is a highly accomplished patent professional, qualified as both a U.S. patent agent and a Japanese patent attorney, specializing in semiconductors, the Internet of Things (IoT), and artificial intelligence (AI). He has worked in both in-house and private practice settings, bringing a unique perspective shaped by a strong track record in patent preparation and prosecution, portfolio management, infringement and invalidity analysis, litigation support, due diligence, and IP monetization at top law firms and multinational companies. His deep understanding of cross-border legal perspectives and respect for diverse cultures allow him to communicate seamlessly with international stakeholders and support a wide range of clients in protecting and leveraging their intellectual property rights across jurisdictions.
